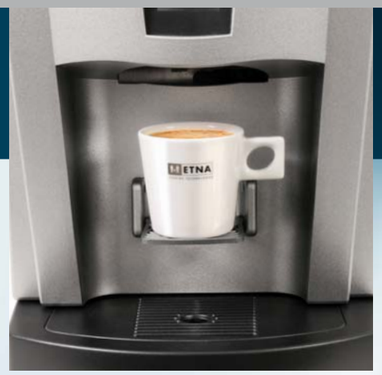
YOUR VISION ♦ OUR CHALLENGE ♦ OUR PASSION

ETNA VEGA
The aroma of freshly ground coffee stimulates your senses, helping to enhance your tasting experience. The Vega offers a wide variety of hot drinks with fresh beans and/or instant coffee. This machine is designed for industrial and hospitality sectors.

ETNA VEGA 3
A versatile machine with all coffee specialties based on fresh beans. With two soluble ingredients, this machine combines high quality with high capacity.

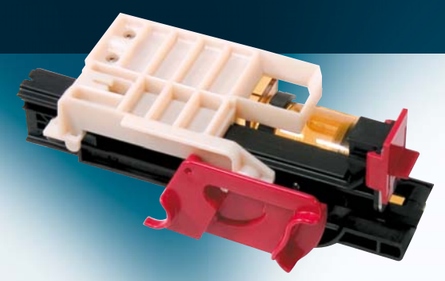
ETNA VEGA 4
By using fresh coffee beans and 3 soluble ingredients (such as instant coffee), this model offers you a wide range of high quality drinks. You are sure to find something to suit all your guests.

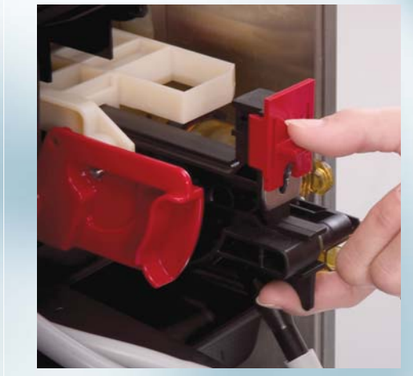


◀ DISPENSE AREA ▶
The dispense area is suitable for various sizes of cups. By tilting the cup stand, a Latte macchiato glass or even a jug can be filled.
▼

BEAN CONTAINER ▼
The bean container has a capacity in excess of 1kg of coffee beans and has an easy to use locking device to prevent loss of beans when the container is removed or cleaned.

INTERIOR AND EXTERIOR ▶
Black painted sheet metal.





◀ BREWER
Unique horizontal removable brewer. The unique and patented brewer features pre-infusion for a great tasting espresso. The dosage of coffee is adjustable between 6 and 16 grams. Easy access from the front and horizontal removal from the brewer makes cleaning and rinsing very simple. Excellent tasting espresso or other drinks will be the reward.

CONTROL PANEL ▶
The easy to use selection panel with 8 push buttons with LCD display ensures ease of operations. The panel provides information about various programs and operational instructions.
